

# Phonics Screening Check

## Parent Workshop

# What is the Phonics Screening Check?

- It is a statutory reading check that all Year 1 children take in June
- The check is designed to assess if a child has reached the age appropriate standard of decoding by the end of Year 1

# How is the check administered?

- It is completed on a 1:1 basis with a teacher
- There is no time limit
- The children have worked on similar activities in their phonics lessons and are familiar with the format

# What does the check consist of?

- The test contains 40 words
- 20 real words and 20 pseudo words ('nonsense words')
- The pseudo words are presented with an alien picture ('alien' words)
- The words gradually get more difficult

# Why use pseudo words?

- It allows the teacher to be sure that the child is able to decode unfamiliar words and is not just reading words from memory

# What is the expectation?

- For the past few years, the expected standard has been set at 32 out of 40 words correctly read
- This could change...the Department for Education do not release the pass mark until the tests are completed!

# Do all children complete the check?

- It is expected that all children complete the check unless they have no understanding of the way sounds link to letters
- If a teacher feels a child is really struggling, they may choose to end the check before the end
- There is no time limit and teachers can edit the size of the text or 'chunk' the check

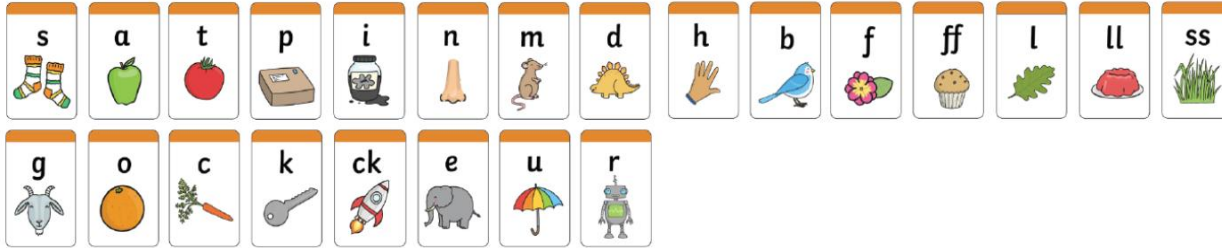

# **What happens if a child does not meet the expected standard?**

- Children who do not meet the expected standard in Year 1 complete the check again in Year 2
- School is required to provide extra support for

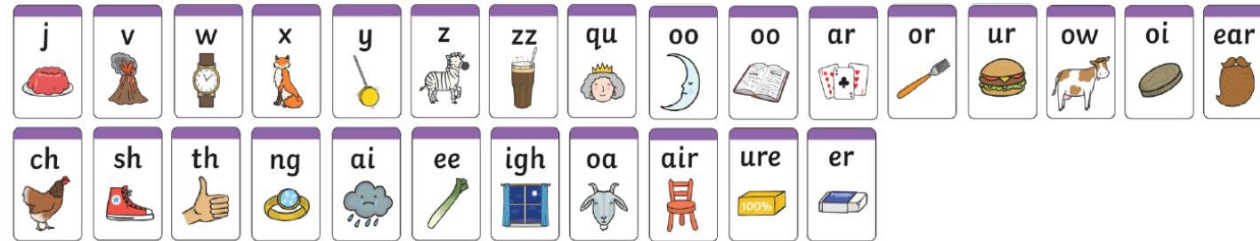

# What happens to the data?

- You will be informed of your child's results (End of Year Reports)
- The data legally has to be submitted to the Department for Education
- The data is used within school to provide assessment support/targets
